INTRODUCTION

Schlagel, Inc. of Cambridge, Minnesota, has had many years of experience in producing industrial quality material handling equipment.

Our standard galvanized service platforms, distributor platforms, offset rest platforms, ladder and cage assemblies are configured to meet OSHA requirements and designed to assist you in maintaining your equipment. Call the factory for assistance on any special requirements.

All Equipment manufactured by Schlagel, Inc. is guaranteed to be free from defects in materials and workmanship, providing no alteration or repair has been made by the user unless authorized in writing by Schlagel, Inc.

USE OF MANUAL

This manual provides installation, operation, service recommendations and replacement parts identification for Schlagel Platforms.

Each section of the manual is fully illustrated for fast, accurate reference. It is highly recommended that this manual be read thoroughly by those who are responsible for the installation, operation and maintenance of this platform. Refer to the Table of Contents, Page 1 for the location of specific information.

As new information and equipment become available, service and parts bulletins will be issued by Schlagel, Inc. So that they will be readily available for reference, all bulletins should be inserted with this manual. This manual covers standard platform equipment only. For any items or special equipment not covered in this manual, please consult our service department for recommendations or instructions regarding this equipment.

INFORMATION SERVICE

Our service department will provide consultation on installation, operation and maintenance at no cost to you. Also, information from you, regarding encountered operation or service problems that are not covered in this manual will be greatly appreciated.

Contact Schlagel, Inc. for information on adding new equipment to your system or changing your installation such as: Lengthening or shortening, adding or deleting platforms, and etc.

Write or Call: Schlagel, Inc.
491 North Emerson Street
Cambridge, MN 55008
(763) 689-5991 or 1-800-328-8002

SAFETY CODE

CAUTION

The icon shown below was proposed as a safety alert symbol by the Farm and Industrial Equipment Institute (FIEI) and approved by the American Society of Automotive Engineers (ASAE) and others for the purpose of calling attention to safety precautions which if not heeded might lead to bodily injury.

Please read instructions carefully and follow the instructions exactly wherever this symbol

UNCRATING AND INSPECTION

All parts have been carefully checked before shipment from our factory. Carefully inspect all parts for damage that may have occurred during shipment. Check to make sure that all items listed in your Packing List are included.

If damages or shortages are noted, have the transportation company's representative note this on the Bill of Lading and notify Schlagel, Inc. Forward this information along with the shipping date so that we may expedite the replacement parts.

IMPORTANT

All claims for shipping damages must be noted by the consignee at the time of delivery and filed with the transportation company.

TYPICAL WORK PLATFORM

MODELS CS101, CS161 AND #6 - #10

LADDER AND PLATFORM ARRANGEMENT FOR RIGHT HAND DRIVE.
(FOR "LEFT HAND" DRIVE THE ASSEMBLY WOULD BE THE MIRROR IMAGE OF THIS ARRANGEMENT.)

SECTION 2 - WORK PLATFORM ASSEMBLY

ASSEMBLY OF BASIC COMPONENTS

NOTE - Hand tighten all bolts until platform is assembled before being fully tightened.

Shown as a right hand drive.

NOTE - Reference drawing page 4 and bill of materials list on page 7.

Model #6 Instructions

STEP 1

1. Bolt front channel (C) to the holes in 36" x 6" bracket (A) factory mounted to trunking.
2. Bolt rear channel (D) to formed bracket (B) factory mounted on the up side of trunking.

STEP 2

1. Place side channels (E) on front channel (C) and rear channel (D).

NOTE - Left and right sides

Models #10, CS101 AND CS161 Instructions

STEP 1

1. Bolt front channel (C) to the holes in 36" x 6" bracket (A) factory mounted to trunking.
2. Bolt rear channel (D) to holes in the 36" x 6" bracket (A) factory mounted on the up side of trunking.

STEP 2

1. Place side channels (E) on front channel (C) and rear channel (D).

NOTE - Left and right sides

Model #6

DETAIL

Model #10, CS101 AND CS161

STEP 3

1. Bolt in side panel with door opening (G) to channels (C, D & E) opposite the drive side of the leg.
2. Bolt in side panel (F) to channels (C, D, & E).
3. Bolt in rear panel (H) to channels (D & E) and side panels (F & G).
4. Bolt in door stops (R) and door panel (S) to panel (G).

*Model #6 Instructions for door

1. Bolt in the door stops (I) to panel (H) and front channel (C).
2. Bolt in the door panel (J) to panel (H) and front channel (C) opposite the drive side of leg.

STEP 4

1. Bolt on corner post (K).
2. Bolt on handrails (L, M, & N).
3. Bolt on support braces (O) to corner post (K) and head section.
4. Bolt on kick plates (P & Q) to panels (F, G, & H).

WORK PLATFORM ASSEMBLY

MODELS #16 - #48

LADDER AND PLATFORM ARRANGEMENT FOR RIGHT HAND DRIVE.
(FOR "LEFT HAND" DRIVE THE ASSEMBLY WOULD BE THE MIRROR IMAGE OF THIS ARRANGEMENT.)

SECTION 2 - WORK PLATFORM ASSEMBLY

ASSEMBLY OF BASIC COMPONENTS

NOTE - Hand tighten all bolts until platform is assembled before being fully tightened.

Shown as a right hand drive.

NOTE - Reference drawing page 10 and bill of materials list on page 13.

STEP 1

1. Bolt front channel (A) to 4 holes in head discharge.
2. Bolt rear channel (B) to 4 holes in the back of up side leg.

NOTE - Use 1/2" hardware for mounting channels to leg.

STEP 2

1. Place side channel (C) on front channel (A) and rear channel (B).

NOTE - Left and right sides

Models 42 & 48: Mount side channel extension (M) to side channel (C) with splice plate (N) before mounting to front channel (A) and rear channel (B).

See view A.

MODELS 42 & 48 ONLY

VIEW A

STEP 3

1. Bolt in side panel with door opening (D) opposite the drive side of leg.

NOTE - Reference drawings on page 10 and bill of materials list on page 13.

2. Bolt in door stops (P) and door (Q) to panel (D).
3. Bolt in side panel (E).
4. Bolt in the rear panel (F).

***NOTE** - If platform is 148" wide; there is a second side panel that is 16" wide. See parts list on page 13.

**STEP 4**

1. Bolt on kick plates (K & L).
2. Bolt on corner post (I).
3. Bolt on center post (J). *Not required on all models
4. Bolt on handrails (G & H).

Model 42 & 48: Mount handrail splice (O) between side handrail (G).

See detail B.

DISTRIBUTOR PLATFORM ASSEMBLY

MODELS CS101, CS161 AND #16 - #48

NOTE - Ladder is normally located on the side opposite the drive.

The drive would be on "right hand" side for this assembly. For "left hand" drive the assembly would be a mirror image of this.

STEP 1

1. Using two 5/8" dia. threaded rods (B) with flange nuts, bolt stiffener plate (C), base panel (A), and mounting channel (D), together loose.
2. Using two 5/8" dia. threaded rod with flange nuts, bolt mounting channel (D) around trunking.
3. Bolt end kick plates (E) to base panel (A) using only the 2 holes closest to the trunking.
4. Bolt 2 support braces (F) to mounting channel (D) and base panel (A) using the hole farthest away from trunking.

NOTE - Threaded rod length varies for single trunking.

**STEP 2**

1. Bolt side kick plate (G) and 1 long corner post (H) on the opposite of the ladder to the base panel (A).
2. Bolt the other long handrail corner post (H) on the ladder side to the base panel (A) using the holes farthest away from trunking.
3. Bolt the three 42" long handrail corner post (I) to the inside of kick plates (A, E, & G).
4. Bolt all the handrails (J, K, & L) to the handrail corner post (H & I).

REST PLATFORM

MODELS CS101, CS161 AND #16 - #48

NOTE - Platform is shown mounted to a double trunk style leg, but will work on single trunk legs. Just omit the four threaded rod pieces shown between trunking.

STEP 1

1. Assemble two panel support channels (B) and base panel (A) together with four threaded rod (E) and nuts at desired location.
2. Bolt support angles (D) and end kick plates (C) to under side of base panel (A) with carriage bolts.

**STEP 2**

1. Bolt handrail corner post (F) to base panel (A) and kick plates (C). Bolt support channel (B) to handrail corner post (F). Assemble remaining support channel (B), threaded rod (E), and nuts around trunking
2. Bolt handrails (G), (H) and support straps (I) to handrail corner post (F).
3. Bolt ladder stand-off brackets (J) to support channel (B) where needed with 5/8" bolts, washers, & nuts.

NOTE - Attach ladder to stand-off brackets after platform is located properly. Some field cutting and drilling of ladder may be required.

SECTION 4 - REST PLATFORM ASSEMBLY

SECTION 5 - LADDER LOCATION AND ASSEMBLY

LADDER LOCATION WITH REST PLATFORM - MODELS CS101, CS161 AND #6 - #48

NOTE - Shown as a right hand drive with double trunking.

NOTE - Ladder should extend through the top of platform at least 48". Installer should attach top of ladder at each platform where necessary. (Field fab mounts) 10'-0" long ladder sections should be attached at trunking joints. Ladder, cage, and rest platforms should be installed opposite of the drive side. If there are three or more rest platforms stagger the openings as shown.
